Caution: To ensure the correct and safe use of the product, be sure to read the User's Manual carefully prior to operation. 2023.01
The world’s first and only* mirrorless 10x ultra-telephoto zoom lens, now available from SIGMA.

The SIGMA 60-600mm F4.5-6.3 DG DN OS | Sports is a 10x ultra-telephoto zoom lens exclusively for full-frame mirrorless cameras with a unique 10x focal length. The lens design delivers high optical performance throughout the entire zoom range, even with 10x zoom, which makes it capable of capturing any scene in high definition. The newly developed Linear Motor “HLA” delivers unprecedentedly fast and precise autofocus. In addition, the newly developed algorithm “OS2” enables image stabilization of 7 stops at the wide end and 6 stops at the telephoto end. Of course, it is also equipped with Dual Action Zoom, Dust and Splash Resistant Structure, as well as a wealth of customizable functions and specifications of SIGMA’s Sports line to meet the needs of various shooting environments and situations.

The SIGMA 60-600mm is one-of-a-kind ultra-telephoto zoom lens which combines high magnification with an extremely high level of image quality and mobility.
