This warranty is in addition to any existing statutory rights, and nothing in this warranty will affect any of the consumer's statutory rights.

SIGMA provides the consumer with its own manufacturer's warranty for this product, for a period of three years from the initial sale date, subject to the following conditions:

- Should the product exhibit deficiencies during this warranty period on account of material or manufacturing defects, it will be repaired free of charge according to our best judgement or it will be replaced with a defect-free product.
- The prerequisite for claiming under this manufacturer's warranty is proof of the purchase date, which can be proven by submitting the original purchase receipt together with the original SIGMA warranty card, duly completed by the dealer.
- Repair under this warranty must be carried out by one of SIGMA's own repair workshops or by an authorised workshop, to which the defected piece of equipment should be sent carriage paid. Costs for repairs that are carried out by an unauthorised workshop will not be reimbursed.
- Repairs under this warranty take place at authorized service stations, and length of time for repairs in countries

without such stations should account for time of transportation of product to such a station.

- Spare parts are stored for a regulated period of time. After this time has elapsed, if these spare parts are depleted then it may prove impossible to carry out repairs even within the specified three years period from date of purchase. SIGMA may return unrepaired products after inspection, or when the product is evaluated as unserviceable due to unavailability of parts, or repair is rejected after quotation, or other reason.
- This warranty does not apply to damage, defects or malfunctions caused by use not in compliance with the instructions, improper use, impact, being dropped or contamination caused by, for example, moisture, sand, dust, dirt or battery leakage.
- This warranty also does not apply to damage caused by or exacerbated by improper attempts at repair.
- This warranty does not include the repair, maintenance or replacement of components, which are damaged or worn out in the regular course of normal use.
- This warranty does not apply to any accessories, consumables and any software.
- This warranty does not apply to products which have been serviced or modified by anyone other than authorized SIGMA service stations.
- This warranty does not apply to defects caused by use of accessories, attachments, products, parts or devices which do not conform to SIGMA specification. This warranty expires if alterations to the product are undertaken without the express written approval of SIGMA.
- No claims under this warranty can be made if the model description and/or serial number has been removed, altered or rendered illegible.

This warranty is not transferable. This warranty only applies to those SIGMA products for which this warranty card has been issued.

When warranty service is required in the Mainland China for Sigma product purchased in Hong Kong and Macau, you are requested to present this valid original warranty card together with the original purchase receipt from dealer in

Hong Kong and Macau to any Authorized Sigma service centers in the Mainland China to acquire the warranty service. SIGMA is only liable for damages based on compelling, statutory regulations, in particular in accordance with the terms of the relevant product liability law, but not limited hereunto, and is only responsible for repairing those SIGMA products. In particular claims under this warranty do not include replacement claims for destroyed films, wasted development costs, data loss, batteries, travel expenses, loss of income, fees or other consequential losses of any kind caused by the material defect. You have responsibility to back up any data, as it may be lost during repair. All customer settings may also be lost due to repair.

All other warranties, in particular assumed warranties, which have been given by third parties in an express or implied manner, are not binding on SIGMA, but rather on those who have given these warranties.

Insofar as the buyer has acquired the SIGMA product as a consumer as per the law, this manufacturer's warranty does not affect his country-specific statutory rights arising hereunder against the seller.

Important Notes

Upon purchase, please check that the dealer's name and date of purchase are shown on the Warranty Sticker. If they are not shown, please contact the dealer immediately.

Please attach the Warranty Sticker to the dedicated [Warranty Sticker column] on the Warranty Card. Only when the Warranty Sticker is attached will this become an approved formal Warranty Card.

Please keep the Warranty Card in a safe place. SIGMA is not liable for its loss and does not issue any duplicates.

If the product needs to be repaired, please send it in shock-proof packaging, with a detailed description of the defect as well as the completed warranty card, the original purchase receipt and, if possible, illustrative images that demonstrate the problem to the authorised service centre responsible for your country. In your own interest, please ensure that the package is adequately insured. SIGMA only accepts carriage-paid packages which also cover the return cost of repaired products. Should you wish to send your equipment

carriage unpaid, please return it to the contracting party from the purchase contract, i.e. your supplier.

Should SIGMA establish that, for any equipment returned under these warranty terms, a claim for free-of-charge repair or replacement is not justified, the customer will be informed of this together with the likely repair costs. Should the customer not place a corresponding repair order within two weeks the equipment will be returned to him unrepaired.
